Join the future of attendance management today and let our Time Attendance Solution take your organization to the next level. Efficiency, speed, and informed decision-making – it's all at your fingertips.

What Time Attendance software does?

01

Time attendance is a solution developed with the help of modern technology. It tracks the duty hours of the employees, overtime, ship, leaves, and Holidays.

02

The organization takes attendance through face recognition, through mobile, and geo-fence the boundaries you want to.

03

Upon integration with the Human resource software, the application makes the process of Human Resources & Payroll, effortless and rewarding.

04

By the use of storing data, the application generates a report and tracks the performance of the employees.

05

Overall, time attendance software is an automation tool that transforms the attendance process and provides the workforce with more

Features that Scale up the team and organization
